COVID-19 SMART SCREENING COMPLIANCE AT RESTAURANTS

FAST AND RELIABLE ELECTRONIC SOLUTION FOR SCREENING OF STAFF, DELIVERY AGENTS AND CUSTOMERS

Vasconn Holdings have developed a solution to assist restaurants to adhere to the recently introduced COVID-19 legislative requirements specifically addressing the daily screening, attendance declaration record systems and a daily health register of all individuals.

THE COVID-19 SMART SCREENING COMPLIANCE SOLUTION CONSIST OF:

- A fast, reliable, and affordable electronic solution for a comprehensive screening process of staff, delivery agents and customers
- Interface into a secure cloud environment for record keeping and compliance reporting
- Easy access to online regulatory daily reports for management to monitor and manage staff compliance

We record full names, ID number or passport number, nationality, nature of position (i.e. temporary, casual or permanent), residential address, and cell phone numbers of all employees and delivery persons;

OUR SOLUTION WILL FURTHER BENEFIT YOU WITH THE FOLLOWING:

- Your customers can pre-complete their electronic screening questionnaire at home
- If someone is symptomatic, they will receive a red light at home before traveling to your establishment, preventing unwanted arrivals, keeping non symptomatic diners save.
- Your customers will have a QR code with which they can jump the queue with upon their arrival
- Walk in customers simply register for a QR Code by sending an SMS with your <SITE ID> to 43211
- You will have your customers details available for future promotions or specials.

We also provide a comprehensive set of the relevant COVID-19 templates for policies, procedures, training and awareness material as well as technical support.

We have extensive experience in application development, IoT and managing sensitive data. Our servers and database are POPI Act compliant and is currently being utilised by more than 150 local governments in South Africa, the healthcare industry and many large corporations throughout South Africa and internationally.

RECORD DAILY SCREENING AND
ATTENDANCE VERIFICATION

VERIFICATION PROCESS

THE FOLLOWING REPORTS ARE AVAILABLE:

- Daily Health Register reports for Staff, Delivery Agents and Customers which will include:
 - Time in and time out, answers to declarations, and temperatures per individual
 - Selectable date ranges for inspection and monitoring purposes
 - Ability to export to Excel and other formats
 - Setup reports to be received via email on a daily basis at specified times
- High Risk Individual Report for Staff, Delivery Agents and Customer
 - Scanned above 37.5°C
 - Declarations not in accordance with legislation

An immediate urgent alert will be sent to the COVID-19 Compliance officer (and/or any other nominated person) to inform of a high-risk individual at entry of the premises. This gives management the opportunity to intervene and implement protocols.
